Roles and responsibilities

This section of our Centre Policy outlines the personnel in our centre who have specific roles and responsibilities in the process of determining teacher assessed grades this year.

Roles and Responsibilities

This section gives details of the roles and responsibilities within our centre:

Head of Centre

- *Our Head of Centre, Kate Carr, will be responsible for approving our policy for determining teacher assessed grades.*
- *Our Head of Centre has overall responsibility for the school as an examinations centre and will ensure that clear roles and responsibilities of all staff are defined.*
- *Our Head of Centre will confirm that teacher assessed grade decisions represent the academic judgement made by teachers and that the checks in place ensure these align with the guidance on standards provided by awarding organisations.*
- *Our Head of Centre will ensure a robust internal quality assurance process has been produced and signed-off in advance of results being submitted.*

Senior Leadership Team and Heads of Department

Our Senior Leadership Team and Heads of Departments will:

- *provide training and support to our other staff.*
- *support the Head of Centre in the quality assurance of the final teacher assessed grades.*
- *ensure an effective approach within and across departments and authenticating the preliminary outcome from single teacher subjects.*
- *be responsible for ensuring staff have a clear understanding of the internal and external quality assurance processes and their role within it.*
- *ensure that all teachers within their department make consistent judgements about student evidence in deriving a grade.*
- *ensure all staff conduct assessments under the appropriate levels of control with reference to guidance provided by the Joint Council for Qualifications.*
- *ensure teachers have the information required to make accurate and fair judgments.*
- *ensure that a Head of Department Checklist is completed for each qualification that they are submitting.*

Teachers/ Specialist Teachers / SENCo

Our teachers, specialist teachers and SENCo will:

- *ensure they conduct assessments under our centre's appropriate levels of control and have sufficient evidence, in line with this Centre Policy and guidance from the Joint Council for Qualifications, to provide teacher assessed grades for each student they have entered for a qualification.*
- *ensure that the teacher assessed grade they assign to each student is a fair, valid and reliable reflection of the assessed evidence available for each student.*
- *make judgements based on what each student has been taught and what they have been assessed on, as outlined in the section on grading in the main JCQ guidance.*

- *produce an Assessment Record for each subject cohort, that includes the nature of the assessment evidence being used, the level of control for assessments considered, and any other evidence that explains the determination of the final teacher assessed grades. Any necessary variations for individual students will also be recorded.*
- *securely store and be able to retrieve sufficient evidence to justify their decisions.*

Examinations Officer

Our Examinations Officer will:

- *be responsible for the administration of our final teacher assessed grades and for managing the post-results services.*

Training, support and guidance

This section of our Centre Policy outlines the training, support and guidance that our centre will provide to those determining teacher assessed grades this year.

Training

This section provides details of the approach our centre will take to *training, support and guidance in determining teacher assessed grades this year*.

- *Teachers involved in determining grades in our centre will attend any centre-based training to help achieve consistency and fairness to all students.*
- *Teachers will engage fully with all training and support that has been provided by the Joint Council for Qualifications and the awarding organisations.*

Support for Newly Qualified Teachers and teachers less familiar with assessment

This section provides details of our approach to *training, support and guidance for newly qualified teachers and teachers less familiar with assessment*.

- *In this current academic year we have no NQTs teaching Year 11 or Year 13. Within department teams, as part of the process, we will ensure that all teachers are suitably familiar with assessments.*

Use of appropriate evidence

This section of our Centre Policy indicates how our centre will give due regard to the section in the JCQ guidance entitled: *Guidance on grading for teachers*.

A. Use of evidence

This section gives details in relation to our use of evidence.

- *Evidence for final Teachers Assessed Grades (TAGs) will be drawn from the following sources:*
 - *Preliminary mock examination results from October 2020 (high control).*
 - *In-class assessments taken from April to June 2021, including exam board additional assessment materials (high control).*
 - *Secondary mock examination results from April/May 2021 (high control).*
 - *Non-exam Assessments (NEA) e.g., coursework (appropriate levels of control in line with exam board guidance).*
 - *Records of students' capability in performance-based subjects (appropriate levels of control in line with exam board guidance).*
- *Teachers making judgements will have regard to the Ofqual Head of Centre guidance on recommended evidence, and further guidance provided by awarding organisations.*
- *All candidate evidence used to determine teacher assessed grades, and associated documentation, will be retained and made available for the purposes of external quality assurance and appeals. Paper based evidence will be retained in our secure exam facility, in areas created for each subject. Electronic evidence will be stored, securely and with password protection, on Teams.*
- *We will be using student work produced in response to assessment materials provided by our awarding organisation(s), including groups of questions, past papers or similar materials such as practice or sample papers. In these assessment materials, elements of questions may be removed or combined where, for example, a multi-part question includes a part that focuses on an element of the specification that has not been taught.*
- *We will use non-exam assessment work (often referred to as coursework), even if this has not been fully completed.*
- *We will use student work produced in centre-devised tasks that reflect the specification, that follow the same format as awarding organisation materials, and have been marked in a way that reflects awarding organisation mark schemes.*
- *If other evidence is not available, as a result of a student missing any of the assessments because of a positive Covid test, we may use substantial class work as additional evidence, if required.*
- *We will use internal tests taken by pupils.*
- *We will use mock exams taken over the course of study.*
- *We will use records of a student's capability and performance over the course of study in performance-based subjects such as music, drama and PE.*

We provide further detail in the following areas:

Additional Assessment Materials

- *We will use additional assessment materials to give students the opportunity to show what they know, understand, or can do in an area of content that has been taught but not yet assessed, if necessary.*

Our centre will ensure the appropriateness of evidence and balance of evidence in arriving at grades in the following ways:

- *We will consider the level of control under which an assessment was completed, for example, whether the evidence was produced under high control and under supervision or at home.*
- *We will ensure that we are able to authenticate the work as the student's own, especially where that work was not completed within the school or college. If we are unable to authenticate the work, it will not be used as part of the evidence.*
- *We will consider the limitations of assessing a student's performance when using assessments that have been completed more than once, or drafted and redrafted, where this is not a skill being assessed.*
- *We will consider the specification and assessment objective coverage of the assessment.*
- *We will consider the depth and breadth of knowledge, understanding and skills assessed, especially higher order skills within individual assessments.*

Determining teacher assessed grades

This section of our Centre Policy outlines the approach our centre will take to awarding teacher assessed grades.

Awarding teacher assessed grades based on evidence

We give details here of our centre's approach to awarding teacher assessed grades.

- *Our teachers will determine grades based on evidence which is commensurate with the standard at which a student is performing, i.e. their demonstrated knowledge, understanding and skills across the content of the course they have been taught.*
- *Our teachers will record how the evidence was used to arrive at a fair and objective grade, which is free from bias.*
- *Our teachers will produce an Assessment Record for each subject cohort and will share this with their Head of Department. Any necessary variations for individual students will also be shared.*
- *Where possible, evidence from later in the 2020-21 academic year will be used.*
- *The awarding of teacher assessed grade is based on a holistic judgement of a student's performance on a range of evidence.*
- *Teachers are expected to have reviewed the grade descriptors and exemplification material provided by the exam boards when awarding grades.*
- *We have noted that the basis of assigning grades in 2021 is different to 2020. In 2020, teachers were asked to provide the grade they considered a student would most likely have achieved if they took place. In 2021, grades must be based on the evidence produced by students.*
- *For A-Level studies, and some of our GCSE subjects, we will consider our cohorts' small size; however, we recognise with our small student numbers in some subjects, the distribution of grades for a particular subject in 2021 may be different to grades in previous years. For example, if no student achieved an A* in previous years, it will not be a barrier to students achieving an A* in 2021.*
- *Grades awarded will not be based on predicted student trajectory, aspirational target grade or baseline YELLIS and ALIS grade.*
- *If a student is deemed to have insufficient evidence to award a grade after the internal deadline of 28th May, a final assessment may be used to provide additional evidence.*

Internal quality assurance

This section of our Centre Policy outlines the approach our centre will take to ensure internal standardisation of teacher assessed grades, to ensure consistency, fairness and objectivity of decisions.

Head of Centre Internal Quality Assurance and Declaration

Internal quality assurance

This section gives details of our approach to internal standardisation, within and across subject departments.

- *We will ensure that all teachers involved in deriving teacher assessed grades read and understand this Centre Policy document.*
- *In subjects where there is more than one teacher and/or class in the department, we will ensure that our centre carries out an internal standardisation process.*
- *We will ensure that all teachers are provided with training and support to ensure they take a consistent approach to:*
 - *Arriving at teacher assessed grades*
 - *Marking of evidence*
 - *Reaching a holistic grading decision*
 - *Applying the use of grading support and documentation*
- *We will conduct internal standardisation across all grades.*
- *We will ensure that the Assessment Record will form the basis of internal standardisation and discussions across teachers to agree the awarding of teacher assessed grades.*
- *Where necessary, we will review and reflect on individual grading decisions to ensure alignment with the standards as outlined by our awarding organisation(s).*
- *Where appropriate, we will amend individual grade decisions to ensure alignment with the standards as outlined by our awarding organisation(s).*
- *Where there is only one teacher involved in marking assessments and determining grades, then the output of this activity will be reviewed by an appropriate member of staff within the centre. This will be within interdepartmental teams with input / supervision by a member of SLT.*
- *In respect of equality legislation, we will consider the range of evidence for students of different protected characteristics that are included in our internal standardisation. These include age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation.*

Comparison of teacher assessed grades to results for previous cohorts

This section of our Centre Policy outlines the approach we will take to compare our teacher assessed grades in 2021 with results from previous cohorts.

Comparison of Teacher Assessed Grades to results for previous cohorts

This section gives details of our internal process to ensure a comparison of teacher assessed grades at qualification level to results for previous cohorts in our centre taking the same qualification.

- *We will compile information on the grades awarded to our students in past June series in which exams took place (2017 - 2019).*
- *To ensure that grade judgements are driven by student attainment and not historical data, comparison with historical data should only be made after teachers have submitted final grade judgements on SIMS.*
- *After teachers have made grade judgements (i.e., after 28 May 2021), Heads of Department will compare these judgements to the historical data. Historical data will not include data from 2020 where students did not sit externally assessed exams.*
- *We will consider the size of our cohort from year to year.*
- *We will consider the stability of our centre's overall grade outcomes from year to year.*
- *We will consider both subject and centre level variation in our outcomes during the internal quality assurance process.*
- *We will prepare a succinct narrative on the outcomes of the review against historic data which, in the event of significant divergence from the qualifications-levels profiles attained in previous examined years, which address the reasons for this divergence. This commentary will be available for subsequent review during the QA process.*

This section gives details of the approach our centre will follow if our initial teacher assessed grades for a qualification are viewed as overly lenient or harsh compared to results in previous years.

- *We will compile historical data giving appropriate regard to potential mixtures of A*-G and 9-1 grades in GCSEs. Where required, we will use the Ofqual guidance to convert legacy grades into the new 9 to 1 scale.*
- *We will bring together other data sources that will help to quality assure the grades we intend to award in 2021.*
- *Where there is significant divergence from the qualification level, i.e., AS / A Level and GCSE profiles attained in previous examined years, Heads of Department will prepare a succinct commentary that addresses this disparity and highlights its reasons. This commentary will use evidence to show if a cohort is more or less able than in previous years. Such evidence may include tracking data, prior assessment data, or YELLIS / ALIS data.*
- *A review of the reasons for a disparity between the 2021 grade judgements and historical data may ultimately indicate that students have been marked too harshly or leniently. In this case, changes to grades should be applied consistently across the whole cohort for a particular subject.*

- *In the event of a concern with grade judgements across a range of subjects, the Senior Leadership Team will review the whole cohort's results with evidence supplied by departments, and historical data.*

This section gives details of changes in our cohorts that need to be reflected in our comparisons.

- *We will omit subjects that we no longer offer from the historical data.*
- *Some of our cohort sizes are small, resulting in minimal numbers of students in some subjects. As such, standardising these subjects against historical data may be statistically invalid. In these instances, Heads of Department will ensure a range of robust assessments are utilised to determine final teacher assessed grades.*

Access Arrangements and Special Considerations

This section of our Centre Policy outlines the approach our centre will take to provide students with appropriate access arrangements and take into account mitigating circumstances in particular instances.

Reasonable adjustments and mitigating circumstances (special consideration)

This section gives details of our approach to access arrangements and mitigating circumstances (special consideration).

- *Where students have agreed access arrangements or reasonable adjustments (for example a reader or scribe) we will make every effort to ensure that these arrangements are in place when assessments are being taken.*
- *Our SENCo and Exams Officer have provided all departments with the up-to-date Exam Access Arrangement and Reasonable Adjustments information for Years 11 and 13, and continue to work with them to ensure that all students with additional requirements have been catered for during the assessment period.*
- *Where an assessment has taken place without an agreed reasonable adjustment or access arrangement, we will remove that assessment from the basket of evidence and alternative evidence obtained.*
- *Where illness or other personal circumstances might have affected performance in assessments used in determining a student's standard of performance, we will take account of this when making judgements.*
- *We will record, as part of the Assessment Record, how we have incorporated any necessary variations to take account of the impact of illness or personal circumstances on the performance of individual students in assessments.*
- *To ensure consistency in the application of Special Consideration, we will ensure all teachers have read and understood the document: [JCQ – A guide to the special consideration process, with effect from 1 September 2020](#)*

Addressing disruption/differential lost learning (DLL)

B. Addressing Disruption/Differentiated Lost Learning (DLL)

This section gives details of our approach to address disruption or differentiated lost teaching.

- *Teacher assessed grades will be determined based on evidence of the content that has been taught and assessed for each student.*
- *Content that has not been fully delivered will not be included as part of the assessed evidence.*

Objectivity

This section of our Centre Policy outlines the arrangements in place to ensure objectivity of decisions.

Objectivity

This section gives a summary of the arrangements in place within our centre in relation to objectivity.

Staff will fulfil their duties and responsibilities in relation to relevant equality and disability legislation.

Senior Leaders, Heads of Department and Centre will consider:

- *sources of unfairness and bias (situations/contexts, difficulty, presentation and format, language, conditions for assessment, marker preconceptions);*
- *how to minimise bias in questions and marking and hidden forms of bias; and*
- *bias in teacher assessed grades.*

To ensure objectivity, all staff involved in determining teacher assessed grades will be made aware that:

- *unconscious bias can skew judgements;*
- *the evidence presented should be valued for its own merit as an indication of performance and attainment;*
- *teacher assessed grades should not be influenced by candidates' positive or challenging personal circumstances, character, behaviour, appearance, socio-economic background, or protected characteristics;*
- *unconscious bias is more likely to occur when quick opinions are formed; and*
- *Our internal standardisation process will help to ensure that there are different perspectives to the quality assurance process.*

Recording decisions and retention of evidence and data

This section of our Centre Policy outlines our arrangements to recording decisions and to retaining evidence and data.

C. Recording Decisions and Retention of Evidence and Data

This section outlines our approach to recording decisions and retaining evidence and data.

- *For each student, departments will create an assessment folder with the evidence used for determining the teacher assessed grade. The file may include printed, electronic or scanned completed assessment materials.*
- *The file should include any records of discussions with the student about their evidence.*
- *All departments must keep a securely stored binder/folder with all administrative documents. The binder/folder will be kept on site and may be requested by SLT, exam boards, and JCQ at short notice and over the summer. The binder must contain:*
 - *Department Record Assessment Forms attached to assessments.*
 - *Head of Department Checklist.*
 - *Variation for Individual Students Forms.*
 - *Department Moderation Forms (Documentation).*
 - *Department Moderation Forms (Assessments).*
- *We will ensure that teachers and Heads of Departments maintain records that show how the teacher assessed grades process operated, including the rationale for decisions in relation to individual marks/grades. Records will be included as notes in the assessment folders.*
- *We will ensure that evidence is maintained across a variety of tasks to develop a holistic view of each student's demonstrated knowledge, understanding and skills in the areas of content taught.*
- *We will put in place recording requirements for the various stages of the process to ensure the accurate and secure retention of the evidence used to make decisions.*
- *We will comply with our obligations regarding data protection legislation.*
- *We will ensure that the grades accurately reflect the evidence submitted.*
- *We will ensure that evidence is retained electronically or on paper in a secure centre-based system that can be readily shared with our awarding organisation(s).*
- *All documentation needs to be immediately available for internal and external moderation at short notice and may be requested in the summer holidays.*

Authenticating evidence

D. Authenticating evidence

This section of our Centre Policy details the mechanisms in place to ensure that teachers are confident in the authenticity of evidence, and the process for dealing with cases where evidence is not thought to be authentic.

- *Robust mechanisms, which will include only using work that has been completed in school or in a controlled environment, will be in place to ensure that teachers are confident that work used as evidence is the students' own and that no inappropriate levels of support have been given to students to complete it, either within the centre or with external tutors.*
- *All teachers are required to report any suspected cases of suspected intentional and unintentional plagiarism or cheating to the Head of Department, Senior Leadership Team and Exams Officer. A teacher panel will form to determine the gravity of the situation and if an assessment should be removed from the basket of evidence for that student or if the student should be offered an alternative re-sit opportunity.*
- *It is understood that awarding organisations will investigate instances where it appears evidence is not authentic. We will follow all guidance provided by awarding organisations to support these determinations of authenticity.*

IT / Cyber Attack contingency

This section of our Centre Policy outlines our IT / Cyber attack contingency measures.

A. IT/Cyber-attack contingency

This section details our approach to managing an IT issue or cyber-attack, should we find ourselves in such a position.

- *We have a 47 page business management document entitled 'Incident Continuity Planning Toolkit' which covers all aspects of IT issues, should they arise.*
- *Whilst this document is not specific to a cyber threat, it does cover all major IT incidents.*
- *In the event of any such incident, it cites specifically that we liaise with the European IT Director of Cognita group, our parent company.*
